Subject:

Status of Information for the Termination of the License.

**(NOTE: This will be used as the
Documents Title in ADAMS)**

7/23/2012 (08:15) I spoke with Ms. Walker about the information that was requested in the NRC's RAI dated June 27, 2012. The hold-up pertains to two sealed sources which were believed to have been exempt but the manufacturer informed her were not. The licensee is awaiting the leak test results and authorization from the manufacturer to ship the sources. Ms. Walker expects the process to take about two weeks. In the meantime, Ms. Walker stated that she will provide the other information requested by the RAI by fax. I informed Ms. Walker that I would contact her in two weeks to check on the status of the sealed sources and that the action needed to be completed before August 26, 2012.

Action Required: Contact in two weeks. If continued delay, change term to renew for 6 months.**Document Availability:****Publicly Available****Non-Publicly Available****Non-Sensitive****Sensitive – Privacy Act/ PII****Immediate Release****Non-Sensitive Copyright****Sensitive – Internal****Normal Release Date: 07/31/2012****Sensitive- Proprietary****Sensitive – Security-Related****Delayed Release Date:****SUNSI Review Completed By:**
