Applicability of License Application

(NOTE: This will be used as the
Documents Title in ADAMS)

7/24/2012 (10:30) LAT brought the application to me for the assignment of a program code and then noted that the place of use only mentioned Virginia, an Agreement State. I contacted the licensee and was informed that Lawrence Keller was involved in a meeting and if I could leave a message in his voice-mail. I informed the receptionist of the purpose of my phone call and whether any other person could speak to me about the application for an NRC license. My request was handled by Mr. Adau. Mr. Adau stated that it was the intention of the applicant to perform work in VA, MD and DC. The applicant possesses a VA license and has applied for reciprocity in MD so the NRC license is for work at military bases and DC. They are aware that the license is assessed an annual fee and are in the process of applying for "small entity status" which is an annual requirement. I thanked Mr. Adau for the information.
