All,

Please find attached a signed electronic copy of the report on plugging of historic holes within the first mine unit. We believe the extensive work we have completed on this project is sufficient to satisfy the requirements of both the WDEQ-LQD and NRC (License Condition 10.10) for mine unit 1. Please let me know if you have any questions regarding this project. Hard copies will go out in the mail today.

Regards,

John Cash
