SUBJECT: CLOSURE OF UNRESOLVED ITEMS

Dear Mr. Hampton:

During a previous U.S. Nuclear Regulatory Commission (NRC) decommissioning inspection (030-04330/2009-001, dated December 31, 2009), two unresolved items (URIs) were opened to track identified decommissioning related issues and the resolution of those issues. On March 1, 2010, you provided information which responded to the two URIs.

Specifically, the issues involved: (1) Title 10 of the Code of Federal Regulations (CFR) 30.36(d) and (g)(1), notification and decommissioning plan requirements for Building 88 (URI 030-04330/2009-001-01); and (2) the adequacy of survey to demonstrate compliance with NRC unrestricted use dose limits in 10 CFR 20.1402 for Building 88 (URI 030-04330/2009-001-02). The NRC has reviewed the information you provided in your March 1, 2010 response and in documents related to amendment 62 to your license, which was issued on May 20, 2010, authorizing the release of Building 88 for unrestricted use. Based on our review, we have determined that no violations of NRC requirements were identified. Consequently, the NRC considers the two URIs closed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
