

October 14, 2012

John T. Lindberg  
Chair of the AMSE Working Group –  
Personnel Qualification, Surface, Visual & Eddy Current  
Program Manager NDE Innovations  
Electric Power Research Institute  
1300 West W.T. Harris Blvd  
Charlotte N.C. 28262-8550

I would like to nominate Dr. Stephen E. Cumblidge, as the authorized U.S. Nuclear Regulatory Commission (NRC) representative on the American Society of Mechanical Engineers (ASME) Boiler & Pressure Vessel (BPV) Section XI Working Group on Personnel Qualification, Surface, and Visual & Eddy Current. Dr. Cumblidge is a Materials Engineer in the Piping and Nondestructive Examination Branch of the Division of Engineering in the Office of Nuclear Reactor Regulation (NRR:DE:EPNB), where he focuses as a subject matter expert on nondestructive testing and materials degradation.

Dr. Cumblidge's ASME Codes & Standards Personnel Form (PF-1) was submitted previously and the Participation Acknowledgement Form (PAF-A) is included with this letter.

In accordance with the Office of Management and Budget Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee as an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence should be addressed to:

U.S. Nuclear Regulatory Commission  
ATTN: Dr. Stephen Cumblidge  
M/S: O9-H6  
Washington, DC 20555-0001  
Voice message: 301-415-2823  
Fax: 301-251-7420  
E-mail: [Stephen.cumblidge@nrc.gov](mailto:Stephen.cumblidge@nrc.gov)

J. Lindberg
