Hi Betsy –

I don't have the package back from our Legal folks as of today. I am going to see them today and will urge them to get it signed and notarized by tomorrow. I will then send it to Wells Fargo. I expect to be able to give you a revised STA and cover letter as early as I can next week.

Not to make excuses but vacations have created some of the delay in it getting this back to you. I will let you know as soon as I forward the STA with the "-02" license to Wells Fargo for their signature.

One other item, once you let me know about the "-02" license I checked the Philotechnics Decommissioning Plan it also needed to be updated. This week I just received an updated copy from Glenn Marshall which will also go into the revised STA to you.

Thanks for the update, Skip. Did this get through your legal review yet?..my management is interested in knowing about how long you expect it will take to get it to the bank, and how long the bank may take.

Thanks,  
Betsy

Hi Joel and Betsy –

I have the original and I am working on it. Joel got me a copy of their new -02 license and I have inserted it into the revised STA. I reviewed the STA for any other reference to the other “MD license”. I still need to get our Legal folks to review and sign the revised version, then I send it to Wells Fargo.

I will try and get it to Wells Fargo this week.

Joel,

Could you please update me on the progress to replace/amend the STA to refer to the -02 (cyclotron) license, instead of the -01 (pharmacy license) as was listed in the STA? I sent you an email about this on June 22, so am just looking for a progress report.

Thanks,  
Betsy
