SUBJECT: CRMI, VOIDANCE OF APPLICATION FOR LICENSE AMENDMENT, CONTROL NO. 577510

Dear Mr. Rhoe:

This concerns the subject application for an Amendment to your material license to add an additional facility previously operated by San Juan Bautista School of Medicine under NRC License Number 52-24907-02. Because you informed us that you will not be able to supply the additional information required to complete the requested action for some time, which include a termination request for NRC License Number 52-24907-02 and a lease agreement for the new facilities, we have voided your application. This action is taken without prejudice to the resubmission of your request.

Please note that the office of the Region I Division of Nuclear Materials Safety has moved effective May 9, 2012. Our new address is:

U. S. Nuclear Regulatory Commission
Region I
2100 Renaissance Blvd, Suite 100
King of Prussia, PA 19406-2713

In addition, the NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Sincerely,
