Subject: Integrated Assessment: request for reference docs
Date: Wednesday, August 01, 2012 7:16:22 PM

Jim,

As I earlier today, it would be helpful if your NEI team has references we could cite in the Integrated Assessment's appendices. The reference citation topics we are looking for are the following:

- Documents that have been used by licensees for assessing the condition and capability of flood protection features (either qualitatively or quantitatively) or for use in designing flood protection systems.

- Documents describing efforts related to testing of flood protection features (e.g., seals) to assess their performance (e.g., rate of leakage) or reliability (e.g., probability of failure).

- Documents describing application of HRA approaches and concepts for assessing the feasibility or reliability of procedures associated with flooding (either qualitatively or quantitatively).

Thank you,
Chris
