Rockville, MD 20852

Mr Foster

This is a letter to inform that Environics USA does intend to renew its NRC License that is coming due on July 31. License # 19-23974-01E listed at the address location below.

Environics USA, Inc.
1308 Continental Drive, Suite J
Abingdon, Maryland 21009
Phone: 410-612-1250
Fax: 410-612-1251

I did receive the license renewal note but I have been so swamped at the office I have not been able to complete the renewal application. I have emailed this to Richard Struckmeyer the other week while I was trapped in a airport. At that time I was hoping to get the application completed and in the mail to you this week but I have not been able to.

At this time I am worried that I will not be able to get the documents done and to you in time so I send this letter to indicate that yes I want to renew and I am working on it and politely beg for a little more time.

If there are any questions or problems please fee free to call me at the office at your convenience.

Thank You

Rolf Meinholtz

UPS Internet Shipping: View/Print Label

1. **Ensure there are no other shipping or tracking labels attached to your package.** Select the Print button on the print dialog box that appears. Note: If your browser does not support this function select Print from the File menu to print the label.
2. **Fold the printed sheet containing the label at the line so that the entire shipping label is visible.** Place the label on a single side of the package and cover it completely with clear plastic shipping tape. Do not cover any seams or closures on the package with the label. Place the label in a UPS Shipping Pouch. If you do not have a pouch, affix the folded label using clear plastic shipping tape over the entire label.

3. **GETTING YOUR SHIPMENT TO UPS**

UPS locations include the UPS Store®, UPS drop boxes, UPS customer centers, authorized retail outlets and UPS drivers.

Find your closest UPS location at: www.ups.com/dropoff

Take your package to any location of The UPS Store®, UPS Drop Box, UPS Customer Center, UPS Alliances (Office Depot® or Staples®) or Authorized Shipping Outlet near you. Items sent via UPS Return Services(SM) (including via Ground) are also accepted at Drop Boxes. To find the location nearest you, please visit the 'Find Locations' Quick link at ups.com.

Customers with a Daily Pickup

Your driver will pickup your shipment(s) as usual.

Following is the request for renewal for the License #19-23974-01E for Envionics USA, Inc. located at 1308 Continental Drive, Suite J Abingdon MD 21009 and the associated documents.

Contents

- Cover letter
- Application/renewal form 313
- Section 5 - 11 Statement

- Appendix 1-Current SSDRs
- Appendix 2-Current NRC Licenses
- Appendix 3-Canadian Licenses
- Appendix 4-RSO training and Certificates for Rolf Meinholtz
- Appendix 5-copy of EUSA Rad SOP
- Appendix 6-MD office floor plan
- Appendix 7-Copy, MD Possession license

If there are any questions or problems, please feel free to contact me at the office phone or email address below at your convenience.

Sincerely

Rolf Meinholtz

APPLICATION FOR MATERIALS LICENSE

Estimated burden per response to comply with this mandatory collection request: 4.3 hours. Submittal of the application is necessary to determine that the applicant is qualified and that adequate procedures exist to protect the public health and safety. Send comments regarding burden estimate to the Information Services Branch (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by internet e-mail to Infocollects.Resource@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0120), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

INSTRUCTIONS: SEE THE APPROPRIATE LICENSE APPLICATION GUIDE FOR DETAILED INSTRUCTIONS FOR COMPLETING APPLICATION. SEND TWO COPIES OF THE ENTIRE COMPLETED APPLICATION TO THE NRC OFFICE SPECIFIED BELOW.

APPLICATION FOR DISTRIBUTION OF EXEMPT PRODUCTS FILE APPLICATIONS WITH:

Re: Environics USA, Inc. License # 19-23974-01E Renewal

Section 5; Radioactive Materials

Environics currently is approved and licensed to have three different radioactive materials in its licensed sealed sources.

1. Americium-241, Foil source (NRD model A-001, Amersham Corp. Models AMM 1001 or AMM 1001D. Maximum quantity per sealed source is 160 micro curies (5.92 MBq) Maximum number of sealed sources or devices containing the Am-241 allowed to be held at Environics USA is 1000 at any one time. These sealed sources are used in the ChemPro Chemical detection product line and are listed in the registry under # NR-1160-D-101-E. Another form of the Am-241 source, listed in registry # NR-1160-D-102-E is used in the M-90 chemical detector product line manufactured by Environics OY, (See appendix 1 for copies of Environics USA's SSDRs.)

2. Nickel-63, foil source manufactured by Echert& Ziegler Nuclitec BmbH, Model NBEB17139. Maximum quantity per sealed source is 10 milicuries, (XXX MBq). Maximum number of these sealed sources or devices containing Ni-63 allowed to be held at Environics USA is 500 at any one time. This Ni-63 sealed source is a variant for the ChemPro100 product line listed in NR-1160-D-102-E and is allowed for possession by Environics USA's Maryland possession license. This Ni-63 form of the ChemPro100 is only for sale or distribution in Canada at this time and is allowed by the Canadian License # R-185-0001-1-2017, (see appendix 3 for a copy of this license.)

3. Hydrogen-3, Foil source manufactured by Ritverc, Model BH 3.21 Maximum quantity per sealed source is 18.1 milicuries (300 MBq). Maximum number of sealed sources or devices containing the H-3 allowed to be held at Environics USA is 30 at any one time. These sealed sources are used in the Envi-Series of industrial monitoring devices and are referenced in SSDR # NR-1160-D-103-E, (see appendix 1 for copies Envionics USA's SSDRs.)

Re: Environics USA, Inc. License # 19-23974-01E Renewal

Section 6; Purposes(s) for which licensed materials will be used

The Licensed materials will be used in sealed sources pursuant to section 32.26, 10 CFR Part 32 "Specific Domestic license to manufacture or transfer certain items containing Byproduct Materials," These sealed sources are part of the mentioned chemical detectors that are the ChemPro and M-90 product families of Environics and the Envi Series industrial analyzers of Environics-IUT. These detectors will be distributed to persons exempt from the requirements for a license pursuant to Section 30.20, 10 CFR part 30.

The ChemPro and M-90 products are designed to be used for the detection of chemical warfare agents and other toxic industrial chemicals in a rugged handheld device and may include Military and civilian first responder personnel.

The Envi-Series detectors are designed to be used as fixed site industrial monitors for the monitoring of chemical processes and or the monitoring of air for safety and health.

Re: Environics USA, Inc. License # 19-23974-01E Renewal

Section 7; Individuals responsible for Radiation Safety Program and their training.

Environics USA employs Rolf Meinholtz as the company RSO for its Americas operations, he has held this position since shortly after initial employment and training in 2003. He has been trained and accepted as RSO by State and Federal offices and his training certificates can be found in Appendix 4 of this document.

Re: Environics USA, Inc. License # 19-23974-01E Renewal

Section 8; Training for individuals working in restricted areas.

Please see section 5 of Environics USA's RAD SOP document, (appendix 5 of this document,) for details on regards to the individual training of individuals working with the sealed sources or devices.

Rolf Meinholtz as the RSO is the individual who is responsible for the training and compliance to the guidelines stated in the Rad SOP.

Re: Environics USA, Inc. License # 19-23974-01E Renewal

Section 9; Facilities and Equipment

Please see Appendix 6 of this document for the building floor plan for Environics USA, Inc. Located at 1308 Continental Drive, Suite J , Abingdon, MD 21009.

All sealed sources or detectors containing sealed sources are stored in the Radiation storage vault when not being worked on. The entire facility requires two layer access (key and security card and code.) The Rad storage vault is a locked storage room that has a different access requirement entry, (code required access lock that is completely separate from all other access.)

Re: Environics USA, Inc. License # 19-23974-01E Renewal

Section 10; Radiation Safety Program

Please see appendix 5 for a copy of Environics USA's current Radiation Standard Operating procedure.

Environics

Re: Environics USA, Inc. License # 19-23974-01E Renewal

Section 11; Waste Management

No Radioactive Waste will be generated.

Environics USA receives completed sealed source assemblies either already installed into the above referenced detectors or as spares for assembly or repair of the above mentioned detector systems. Environics USA does not hold license and will not perform any work 'within' the actual sealed source.

Any sealed source or detector taken out of service will be returned to Environics OY for final disposition and disposal. Environics USA policy is that Environics will take back its products for disposal (for a nominal fee) and will then evaluate and dispose of the source materials at the production facilities in Mikkeli Finland in accordance to EOY policy and procedures.

Re: Environics USA, Inc. License # 19-23974-01E Renewal

Section 12; License fees

None included since this is a renewal of the existing license # 19-23974-01E
