H. B. ROBINSON STEAM ELECTRIC PLANT, UNIT NO. 2
DOCKET NO. 50-261/RENEWED LICENSE NO. DPR-23

SUPPLEMENTAL INFORMATION REGARDING
H. B. ROBINSON STEAM ELECTRIC PLANT, UNIT NO. 2 INSERVICE
INSPECTION PROGRAM PLAN FOR THE FIFTH TEN-YEAR INTERVAL

Ladies and Gentlemen:

By letter to the Nuclear Regulatory Commission (NRC) dated March 14, 2012 (Agencywide Documents Access and Management System Accession No. ML12082A009), Carolina Power & Light Company, doing business as Progress Energy Carolinas, Inc., submitted the Inservice Inspection (ISI) Program Plan for the Fifth 10-Year Interval for the H. B. Robinson Steam Electric Plant, Unit No. 2 (HBRSEP). The NRC by NRC letter dated June 13, 2012 (ADAMS Accession No. ML12156A147) requested additional information to complete the review of Relief Request (RR)-02. Progress Energy Carolinas, Inc., by letter to the NRC dated June 19, 2012 (ADAMS Accession No. ML12187A249) provided the requested information.

In a conference call between the NRC Staff and HBRSEP personnel on July 13, 2012 the NRC asked if RR-02 contained any B9.32 welds in the request. In response, Progress Energy Carolinas, Inc is providing the following supplemental information.

The welds that cannot currently be inspected due to insulation and listed in the attachment to our June 19, 2012 letter do not include any welds to which the B9.32 criterion of ASME B&PV Code, Section XI, 2007 Edition with 2008 Addenda, Table IWB-2500-1 would be applicable.

This document contains no new Regulatory Commitments. If you have any questions concerning this matter, please contact Richard Hightower, Supervisor – Licensing/Regulatory Programs at (843) 857-1329.

Sincerely,

Sharon A. Wheeler
