**To:** Chang, Richard  
**Cc:** Tinkler, Charles  
**Subject:** today's call with Sandia

Thanks for coordinating today's call with Sandia. The following is my understanding of the outcomes of this call:

1. Waiver for KC: Randy and Shawn cannot tell us when a decision will be made on this issue. KC can perform work on SOARCA starting in mid-May regardless of whether a decision is made. In either case, KC can perform a maximum of 400 hours (10 weeks) of work on SOARCA. [Richard will ask RES management to call Randy and Shawn's manager (Susan Pickering) on this issue.]
2. Bringing configuration control to NRC: Randy and Shawn will send in the configuration control version of the Main Report to NRC today. Randy and Shawn will talk to Susan Pickering about sending in the configuration control version of the Appendices and will get back to us by Friday (Jan 7).
