You are 100% correct. It is getting very late.

Here are the administrative arrangements that Richard Chang has made so far:
Participants: Sandia MELCOR analysts (KC Wagner, Kyle Ross), NRC (Bob Prato, Jason Schaperow, maybe Richard Chang), Dominion (Barry Garber, Bill Webster)
We would travel to Virginia on Tuesday, January 18, and meet with Dominion on Wednesday, January 19.

Richard Chang is responsible for getting the micropurchase contract approved, so he told me he will respond to your email.

Thanks,
Jason

Hi Jason,

It is getting very late to make travel arrangements (i.e., especially when dycoda is paying for them without being reimbursed). Are the dates at the site firmed up at the site so that I can make my arrangements? The micropurchase contract will only cover 18.7 hours and no travel costs.

KC

KC and Kyle,

Richard Chang is working to get the micropurchase approved in the next couple of days, so that we can travel to Surry next week.

Kyle, Could you send to me today the latest version of the list of questions we have for Surry? We will need to provide this list to Surry prior to the site visit.

Thanks,
Jason
