8/2/2012 (09:35) I was informed by the receptionist that both the nuclear medicine technologist and the office manager were unavailable. (10:40) I spoke to the medical director. He stated that the number I called (304-254-0892 as depicted on the most recent 591 Part 3) did not belong to the Greenbrier Clinic. They were an NRC licensee, always had the same phone number, but were never associated with the clinic that I was attempting to contact. I used switchboard.com and examined earlier documents in the license and came up with the phone number as stated above. (11:05) I left a message on Karen Long's voice-mail for her to get back in touch with me. (11:45) Ms. Long called me back and indicated that the package had been sent in July 28<sup>th</sup> by FedEx and that she had a confirmation certificate. I thanked her for the information and stated that I would look around for the hard copy since the application had not been put into ADAMS yet.
