MEMORANDUM TO: Ronaldo Jenkins, Chief
Licensing Branch 3
Division of New Reactor Licensing
Office of New Reactors

FROM: David Misenhimer, Project Manager */RA/*
Licensing Branch 3
Division of New Reactor Licensing
Office of New Reactors

SUBJECT: SUMMARY OF MAY 22, 2011, MEETING BETWEEN THE
U.S. NUCLEAR REGULATORY COMMISSION STAFF AND TOSHIBA
TO DISCUSS TOSHIBA'S APPROACH TO REVISE THE PROBABILITY
RISK ANALYSIS AND ADDRESSING HURRICANE MISSILES AND
CATEGORY I STRUCTURES IN SUPPORT OF THEIR ADVANCED
BOILING WATER REACTOR DESIGN CERTIFICATION RENEWAL
APPLICATION

On May 22, 2012, the U.S. Nuclear Regulatory Commission (NRC) staff met with Toshiba staff at NRC Headquarters, Rockville, Maryland to discuss Toshiba's (the applicant's) approach to revise the probability risk analysis (PRA) in support of their application for the renewal of the Advanced Boiling Water Reactor Design Certification Renewal Application. The applicant also addressed hurricane missiles, as presented in Regulatory Guide (RG) 1.221, and design of the diesel generator fuel oil transfer tunnels, which are Seismic Category I structures. The enclosure lists the meeting attendees.

A meeting notice was issued on May 3, 2012, and was posted on the NRC's external (public) Web page. It is also available in the Agency-wide Documents Access and Management System (ADAMS) at Accession No. ML121240533. The meeting notice included the meeting agenda. The meeting was a Category 1 meeting and was open to the public.

Agenda item discussion:

Toshiba presented additional information related to NRC questions on proposed PRA updates discussed during a public meeting on June 23, 2011. The applicant presented information on the ABWR design relative to hurricane missiles and plans to address RG 1.221. Toshiba addressed the NRC's concern about providing the design of the diesel generator fuel oil transfer tunnels, which are Category I structures. The applicant also discussed the change category identification that Toshiba plans to include in the next design control document revision. Toshiba's presentation was summarized in a handout (ML12144A034).

R. Jenkins
