SUBJECT: POINT BEACH NUCLEAR PLANT INDEPENDENT SPENT FUEL
STORAGE INSTALLATION – NRC SECURITY INSPECTION REPORT
NOS. 05000266/2012405(DNMS), 05000301/2012405(DNMS), AND
07200005/2012401(DNMS)

Dear Mr. Meyer:

On July 18, 2012, the U.S. Nuclear Regulatory Commission (NRC) completed a security inspection of the physical security program for the independent spent fuel storage installation (ISFSI) at the Point Beach Nuclear Plant (PBNP), Two Rivers, Wisconsin. The purpose of the inspection was to evaluate whether the protection of the ISFSI was in compliance with the PBNP ISFSI Physical Security Plan (PSP), ISFSI security implementing procedures, and the NRC Orders EA-02-104 and EA-03-097. At the conclusion of the onsite inspection on July 18, 2012, the inspector discussed the inspection findings with members of your security, licensing, and ISFSI project management staff.

The inspection also examined activities conducted under your license as they relate to security and compliance with the NRC's rules and regulations and with the conditions of your license. The inspector reviewed selected procedures and records, observed activities, and interviewed personnel. The enclosed inspection report documents the inspection results.

No findings were identified during this inspection.

In accordance with Title 10 of the Code of Federal Regulations (CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. However, because of the security-related discussion contained in the enclosure, and in accordance with 10 CFR 2.390, a copy of this letter's enclosure will not be available for public inspection.

**Enclosure Contains Sensitive Unclassified
Non-Safeguards Information. When
separated from enclosure, this transmittal
document is decontrolled.**

L. Meyer
