Subject: Confirmation of KY radioactive materials license
(NOTE: This will be used as the Documents Title in ADAMS)

On 8/20/2012 I contacted the Kentucky DOH to confirm that Ashland Bellefonte possesses a radioactive materials license. According to M. Vela-Velaz, there is a license for Ashland Bellefonte Cancer Center (202-420-29) that authorizes mobile imaging services. The authorized user is Eric Brandser, M.D. and the radiation safety officer is Sree Thekkeparayil. These individuals are the same ones that are requesting the mobile license to operate in West Virginia. Based on the information obtained, I believe that this is a known organization and a pre-licensing visit is not required.
