1. In section 11.3 of the PSP, the licensee describes protected area (PA) perimeter barriers. Describe the assessment capabilities in the areas where the PA perimeter barrier is comprised of buildings, walls, or roofs in accordance with 10 CFR 73.55(e)(8)(iv) and 10 CFR 73.55(i)(3)(ii). Additionally, the licensee should make appropriate changes during the next revision of the site's PSP to ensure the language clearly describes the assessment capabilities in areas where buildings, walls, or roofs comprise a portion of the PA barrier in accordance with 10 CFR 73.55(e)(8)(iv).

I will appreciate if your staff can provide a response to the above RAI.

Thank you for your support.
