RE: **Notification for NRC Radioactive Materials License # 47-00404-02**  
**(Cabell Huntington Hospital, located in Huntington, WV)**

03003370

Dear Becky:

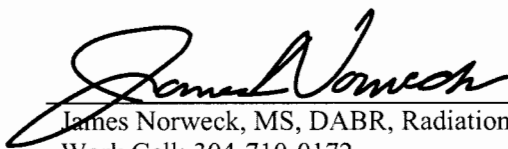

Several physicians have retired or otherwise ceased to practice at our facility. This letter is to notify the NRC that we wish to remove the following physicians as Authorized Users on our radioactive materials license:

1. Hunter Boshell, M.D.
2. Tipu Saleem, M.D.
3. Nadia Yaqub, M.D.

This action has been reviewed and approved by our Radiation Safety Committee. Please explicitly remove these authorized users to our radioactive materials license when processing our next amendment. Please note that we currently have an amendment request in process with your office. I apologize for not including this information with the other current amendment and notification requests.

We appreciate your consideration of this notification. Please contact me if there are any questions or if additional information is desired. Thank you.

Sincerely yours,

James Norweck, MS, DABR, Radiation Safety Officer
