Subject: Notification of Name Change for ThyssenKrupp Waupaca, Inc.
(License No. 48-15031-01)

Dear Sir/Madam:

We would like to inform you of a name and stock ownership change that has become effective for Thyssenkrupp Waupaca, Incorporated as of July 2012. Our new name is:

Waupaca Foundry, Inc.

This name may be familiar to you as the returning original name of our organization. The name change does not reflect a change in the ownership of any individual Waupaca Foundry facility or holder of any applicable permit or license.

All operations are expected to continue in generally the same fashion as before the change. Additionally, all existing responsible management and environmental compliance contacts are unaltered as a result of this change.

Beyond the administrative name update, Waupaca Foundry does not believe that this change will require any additional modifications to any existing permits/licenses we hold with your department.

Please note that this name change has already been accepted by the State's corporation registration division.

Please pass this information on to your staff as appropriate. Thank you for your attention to this matter.

Please feel free to contact me with any questions at (715) 258-6674.

Sincerely,

Bryant Esch
Environmental Coordinator
