Licensee: Saint Luke's Memorial Hospital, INC.
Licensee Number: 52-16061-01
Docket Number: 03010302
Mail Control Number: 577239

To: Carmelo Pérez, Radiation Safety Officer

This is in reference to the renewal application for this license. Thank you for your response to the previous request for information. In order to continue our review, we need the following additional information listed below as we discussed on the phone today.

Please send a return email to confirm that you received this message.

1. You indicated in your last communication that no license activity occurred at the St. Luke's Episcopal Hospital, Calle Guadalupe Final location since 2005. You also stated that all the sources were transferred to the St. Luke's Memorial Hospital Machuelo address. Please provide the dates for last use of material at the Calle Guadalupe Final location, when the sources were transferred to the St. Luke's Memorial Hospital Machuelo location, what isotopes were used in the Calle Guadalupe Final location, a copy of the last survey completed at this location, and the date when the nuclear medicine areas began being used for other purposes.
2. Please provide the calibration data for the CAPINTEC Model CAPTUS-600 Spectrometer S/N 600279 and the LUDLUM M-14C S/N 258800 probe M-44-7 used to conduct your close out survey of the Calle Guadalupe Final location.
3. Please provide a description of the radiation monitoring instrument(s) used to perform radiation level detection, measurement, and removable contamination surveys.

Please provide a written response to these items within 20 days under signature of hospital senior management. This may be provided to my attention by letter or fax (610-337-5269), referencing mail control number 577239.

If you respond by letter, the new mailing address for NRC Region 1 is 2100 Renaissance Blvd., Suite 100, King of Prussia, PA 19406-2713.

Please contact me by telephone or email with any questions.
