The licensee of a nuclear facility (under their quality assurance program) is responsible for qualifying vendors to supply safety related parts to their facility or facilities after an acceptable review of the vendor's programs, procedures and facilities. Any NRC inspections conducted of suppliers or manufacturers programs are documented and posted to the USNRC public website. <http://www.nrc.gov/reactors/new-reactors/oversight/quality-assurance/vendor-insp/insp-reports.html>.
