Subject: Notification of Acceptance and Commencement of Staff Review of Fundamental Nuclear Material Control Plan - E07-01-001, Version 5.0 - AREVA NP Richland Facility (Docket 70-1257)
Date: Thursday, August 23, 2012 4:25:00 PM

Mr. Link,

This is to acknowledge that the staff has accepted for review and is currently conducting its technical review of the Fundamental Nuclear Material Control Plan - E07-01-001, Version 5.0, Dated August 2011. This review has been assigned TAC Number L33233. The technical review should be completed by January 17, 2012.

The staff did not identify any deficiencies or omissions during the acceptance review that could delay further review. Although the package appears to be complete, the technical review nevertheless may identify omissions in the submitted information, or identify technical issues that require additional information. In addition, policy or technical issues may require coordination with other NRC offices. You will be notified promptly if the staff identifies any additional information needs.

A copy of this Notification will be made publicly available electronically for inspection in the NRC Public Document Room or from the NRC's document system, ADAMS, which is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html>.
