Mike:

In preparation for the upcoming August 16, 2012 ACRS subcommittee meeting in support of the FERMI 3 COLA, I have attached a courtesy copy of the Advanced Final Safety Evaluation (AFSE) for Chapter 2. The staff concludes that the enclosed AFSE does not contain any information for which exemption from public disclosure has been sought or approved or any factual errors. However, the NRC will withhold the attached AFSE from public disclosure to allow you the opportunity to verify the staff's conclusion that the AFSE contains no such exempt information or any factual errors. The attached AFSE is password protected.

Thanks for your attention to this matter,

Adrian Muñiz
