License No.: 25-17579-01  
Docket No.: 030-12994  
Control No.: 577712

Dear Mr. Grotbo:

This is in reference to your letter dated June 12, 2012 requesting to amend Nuclear Regulatory Commission License No. 25-17579-01. In order to continue our review, we need the following additional information:

1. Please provide the most recent inventory for the locations you wish to remove, and the most recent leak test for all the gauges at each location.

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region IV Office and refer to Mail Control No. 577712. If you have any technical questions regarding this deficiency letter, please call me at (817) 200-1596.

If we do not receive a reply from you by **August 30, 2012**, we will not remove the current locations of use, and will only add the new locations stated on the amendment request. Please note, once you have all the information you may resubmit a new license amendment request to have the facilities removed.

Sincerely,

***Lizette Roldán-Otero, Ph.D.***
