In the Matter of
NEXTERA ENERGY SEABROOK, LLC
(Seabrook Station, Unit 1)
Docket No. 50-443-LR

Dear Administrative Judges:

Pursuant to 10 C.F.R. §§ 2.309(f)(1) and 2.309(f)(2), Friends of the Coast and New England Coalition (“Friends/NEC”), intervenors in the above captioned matter hereby provide our petition seeking leave to file a new contention which claims that the NextEra Energy Seabrook License Renewal Application Structures Monitoring Program Supplement-Alkali-Silica Reaction (“ASR”) Monitoring, (dated May 16, 2012 and provided to Friends/NEC in NRC Staff Disclosures, July 6, 2012) fails to demonstrate that the effects of aging on structures and components subject to an aging management review (AMR) are adequately managed so that the intended function(s) will be maintained consistent with the current licensing basis (CLB) for the period of extended operation.

Sincerely,
Signed (electronically) by
