**Cc:** GUSTAFSON, OTTO W; VANWAGNER, ROBERT V; Potter, Lawrence R  
**Subject:** NRC Letter of June 25, 2012, Response to request for exemption from specific requirements of 10 CFR Part 73 (TAC no.L24502) for Big Rock Point ISFSI

William and Pamela,

I left a message on William's phone yesterday but Pamela's phone inbox was apparently full. I also sent and attempted withdrawing an earlier e-mail that needed correction. I have not received confirmation that it was recalled from your e-mail. The correct information is below.

We wish to point out an error on page 5 of your June 25, 2012, Safety Evaluation. In section 3.1.5 Mixed-Oxide Fuel (MOX), in the 2nd paragraph, 1<sup>st</sup> sentence, it is stated BRP "did not use MOX fuel at any time during operation."

BRP did use MOX fuel during its operation. There are irradiated MOX fuel assemblies in storage at the BRP ISFSI. There are no un-irradiated MOX fuel assemblies in storage. Refer to Attachment 1, page 5 of 7, item 15, in the BRP request for exemption dated November 30, 2010.

Please call so that we can discuss the issue and what needs to be done.
