San Onofre Nuclear Generating Station (SONGS) Safety Concerns

Dear Chairman Macfarlane:

2017年,1915年,1915年,1915年1月20日

Re:

As the Mayor of one of the largest cities in South Orange County, I am writing on behalf of Laguna Niguel residents who have recently expressed concerns about the January 31, 2012 event at SONGS during which a reactor coolant leak/occurred in Unit 3 resulting in a small radioactive release. Subsequent investigations by Southern California Edison (SCE), Mitsubishi (Designer/Manufacturer) and the NRC have revealed unexpected premature wear in multiple steam generator tubes in both Unit 2 and Unit 3. 情况了1000mm,100mm,对据100mm的。 - 200mm的

The City of Laguna Niguel is located in South Orange County approximately 11 miles northwest of the SONGS FACILITY. The recent event at SONGS and subsequent investigative findings and conclusions have created cause for concern among local officials and area residents, and raised questions about the future operation of SONGS.

The control of the section of the section of

Recently, members of our City Council and City staff attended meetings at SONGS with Southern California Edison (SCE) at which SCE officials briefed City representatives on the unexpected premature wear in multiple steam generator tubes in Units 2 and 3, and the radiation leak from Unit 3 that prompted the shutdown of the plant. At the local level, SCE has also been very transparent and forthcoming by providing up to date SONGS FACT sheets/correspondence including holding one-on-one elected official briefings on an ongoing basis. I sincerely appreciate the due diligence exercised by SCE and NRC officials to err on the side of caution by shutting down both units until such time; a determination can be made as to the cause of the radioactive release and what may have contributed to the premature wear in the steam generator tubes: 30 9440 9316945 svendered coedium access apa paradic got soot ार क्षेत्रक महत्त्वपुर ५०, १७ वर्ग पास रेमाझवार कोएए का उत्तराक प्रकारक रोव कांग्यू रे स्टार अपायक विद्या परिवरी स्थ

In my capacity as the Mayor of Laguna Niguel and as a business leader in Orange County for over 25 years, I urge the NRC to continue its due diligence and independent review of this incident to address public concerns that have been raised in an open and transparent manner, and continue to take prudent and cautionary steps while a careful analysis of the excessive tube wear is conducted and a thorough review of the plant's future viability is determined.

Sincerely,

Paul G. Glaab

Mayor
