Humble Oil and Refining Company
ATTN: Mr. R. W. Miller
Business Analysis Manager
Minerals Department
P. O. Box 2180
Houston, Texas 77001

Gentlemen:

We have completed our review of the environmental report submitted in conjunction with your application dated September 17, 1970, for an AEC source material license to authorize in situ leaching and uranium re-
fining activities in Converse County, Wyoming. We have determined that the proposed action in this particular case is not one significantly affecting the quality of the human environment. Therefore, the procedures set forth in the Commission's Statement of Policy of June 3, 1970, on implementation of the National Environmental Policy Act are not required.

Enclosed is AEC Source Material License No. SUA-1064 which authorizes the activities described in your application. Please let me know if you have any questions concerning the license.

Sincerely,

James C. Malero
Assistant Chief
Materials Branch
Division of Materials Licensing
