

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60532-4352  
AUG 01 2012

Rik Stephens, M.D.  
Radiation Safety Officer  
Community Howard Regional Health, Inc.  
2201 West Blvd.  
Kokomo, IN 46902

Dear Dr. Stephens:

Enclosed is Amendment No. 1 to your NRC Material License No. 13-32789-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

This also refers to your letter dated July 23, 2012, notifying the NRC of the transfer of ownership and control of License 13-32789-01 issued to Imaging Center of North Central Indiana, Inc.

The transferee should note their new responsibility and liability as an NRC licensee. Specifically, responsibility is emphasized with regard to any ongoing NRC inspection and enforcement issues, investigations, facility decontamination and decommissioning funding resources. Please be advised, change of ownership/control cannot be transferred without **prior** written consent from the NRC (10 CFR 30.34 (b) ). A copy of this regulation may be found on the NRC website at <http://www.nrc.gov/reading-rm/doc-collections/cfr/part030/part030-0034.html>. Also, please see NUREG-1556, Volume 15, "Consolidated Guidance About Materials Licenses - Program-Specific Guidance About Changes of Control and About Bankruptcy Involving Byproduct, Source, or Special Nuclear Material Licenses". A copy of this guidance may be found on the NRC website at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v15/>.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which the NRC expects of its licensees.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

R. Stephens

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

William P. Reichhold  
Materials Licensing Branch
