SUBJECT: MEETING SUMMARY – CATEGORY 1 PUBLIC MEETING PREDECISIONAL ENFORCEMENT CONFERENCE HONEYWELL METROPOLIS WORKS, DOCKET NO. 40-3392

Dear Mr. Smith:

This letter refers to our meeting at the NRC Region II Office in Atlanta, Georgia on August 27, 2012, during which you presented information related to the apparent violations associated with the failure to identify credible accident sequences related to seismic events and tornadoes that could result in large uranium hexafluoride (UF₆) releases for which protective actions may be needed. The meeting afforded the members of the public the opportunity to ask questions and provide feedback to the NRC regarding NRC's activities regarding Honeywell after the business portion of the meeting.

The list of meeting attendees is enclosed. The meeting slide presentations are available under accession numbers ML12242A453 (NRC's presentation) and ML12242A455 (Honeywell's presentation) in ADAMS.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/readingrm/adams.html> (the Public Electronic Reading Room).

Should you have any questions concerning this letter, please contact me at 404-997-4629 or marvin.sykes@nrc.gov.
