Stephen Howard, M.S.
Radiation Safety Officer
The University of Kansas Cancer Center
1000 East 101st Terrace
Kansas City, Missouri 64131

Dear Mr. Howard:

This refers to your letter dated July 3, 2012, and to our telephone conversation on August 15, 2012. During the telephone conversation, we discussed voiding your request at this time to allow you time to gather additional information for your amendment request to add two medical physicists to your license. We will void your request without prejudice to resubmission. Please submit the additional information as requested in the enclosed "Request for Additional Information".

When you resubmit your request please state that the resubmission is additional information to **Voided Control 577711**. We will resume our review upon receipt of your response. Please note, that a "voided request" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. The "voided request" is regarded as "good" because it gives you time to prepare a quality response.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

William P. Reichhold

Docket No. 030-36583
Enclosure: Request for Additional Information

REQUEST FOR ADDITIONAL INFORMATION

Telephone (630) 829-9839

FAX (630) 515-1078

To: Steven Howard, M.S. – Radiation Safety Officer/Medical Physicist

Location: The University of Kansas Cancer Center, NRC License 24-32517-01

Date: August 20, 2012

As we discussed by telephone on August 15, 2012, we will void your request at this time to allow you time to gather additional information for your amendment request to add two medical physicists to your license. We have received additional information “bit by bit”, however, this makes it difficult to understand and review, so please resubmit your request in its entirety and refer to voided mail control 577711.

Please be sure to include the following:

Kenneth M. Guida, DMP

NRC FORM 313A (AMP)

Part I (TRAINING AND EXPERIENCE), item 3.a.

Please send a copy of Guida’s diploma from Vanderbilt University.

Part I, item 3.c.

Please specify the dates of training for the remote afterloader in Item 3.c.

Part II (PRECEPTOR ATTESTATION), First, Second and Third sections

Please submit a new Part II- Preceptor Attestation. Kenneth M. Guida’s name needs to be entered in the first, second and third sections rather than the preceptor’s name, Charles Coffey.

Nana Aba Mensah-Brown, Ph.D.

NRC FORM 313A (AMP)

Part I (TRAINING AND EXPERIENCE), item 3.a.

Please send a copy of Mensah-Brown’s diploma from University of Wisconsin-Madison.

Part I, item 3.b.

Please review the dates of training and dates of work experience and specify that these dates were not concurrent. 1 year full-time medical physics training and 1 year full time work experience cannot be concurrent.

Also, the dates on the NRC form 313A (AMP) submitted in the facsimile dated August 7, 2011, appear to be in error, because it appears that the training period ended in July 2012, however, the preceptor document was signed in June 2012.

Also, you may find "Licensing Guidance for using the NRC FORM 313A Series of Forms (January 2008)" helpful. A copy of the guidance can be found on the NRC website at <http://www.nrc.gov/materials/miau/med-use-toolkit/licensing-guidance-form313a.pdf>.

Please resubmit your request as additional information to Voided Control 577711.

We will resume our review upon receipt of your response. Please note, that a "void" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. It costs you nothing, gives you time to prepare a quality response, and is regarded as a "good thing".

Please call me at 630-829-9839 if you have any questions.
