**Subject:** Request for Additional Information on NIST's License Renewal Application for SNM-362 (TAC No. L32643)  
**Date:** Monday, September 10, 2012 5:41:00 PM  
**Attachments:** [RAI's from LICENSE CONDITIONS 9-10-12.docx](#)

---

Tom

Attached is the request for additional information (RAI) that we discussed last week. The RAI's were developed from your last revision to your license renewal application dated March 23, 2011 and subsequent submittals. These RAI's are the ones that we have been discussing over the last few weeks and therefore shouldn't contain any surprises.

The additional information, specified in the attachment, should be provided within 45 days from the date of this letter.

Pending additional information, which answers the Request for Additional Information, we anticipate completing our review by mid November 2012. This date could change depending on the findings of our technical review, or other factors. We will promptly communicate any significant changes to this schedule.

If you have any questions regarding this matter, please contact me at your convenience. Please reference the above TAC No. in future correspondence related to this request.

This document will be made publicly available. In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publically Available Records (PARS) component of the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at <http://www.nrc.gov/reading-rm/adams.html>.

Regards,

*Richard D. Thompson*
