SUNSI REVIEW COMPLETE

ADM002

The purpose of this modification is to:

- 1. Increase the level of effort by .15 FTE to allow for the review of license amendments that may be required for evaluation of beyond design basis events stemming from the NRC analysis of the Fukushima Daiichi event in Japan. The level of effort is also increased by an additional .05 FTE which is needed to complete the remaining hearing support work.
- 2. Extend the period of performance from 9/30/2012 to 9/30/2013 in order to support the increase to the level of effort.
- 3. Increase the ceiling amount by \$89,723.00, from \$113,087 to \$202,810, to reflect the increase in the level of effort and
- 4. Increase the obligated amount by \$42,241.00, from \$110,846 to \$153,087.

Accordingly, the following changes are hereby made:

- 1. Section 3.0 <u>Period of Performance and Level of Effort</u> of the Statement of Work is deleted in its entirety and replaced with the following:
- "The estimated level of effort for this task order is increased by .20 FTE from .25 FTE to .45 FTE to allow the contractor to provide additional technical support. The period of performance of this task order is from September 30, 2011 through September 30, 2013.
- 2. Section 1. CONSIDERATION AND OBLIGATION COST PLUS FIXED FEE (JUN 1988) ALTERNATE I (JUN 1991), paragraphs (a) and (c) are deleted in their entirety and replaced with the following:
- (a) The total estimated cost to the Government for full performance of this contract is \$202,810 of which the sum of \$187,876 represents the estimated reimbursable costs, and of which \$14,934 represents the fixed fee.
- (c) The amount currently obligated by the Government with respect to this contract is \$153,087, of which the sum of \$141,747 represents the estimated reimbursable costs, and of which \$11,340 represents the fixed fee.
