Subject: Indian Point

To: NRC
From: Rose Marie Williams,
Jessica and Todd Leland,
Justina and Rob Strignano,

We urge NRC to CLOSE DOWN INDIAN POINT before it becomes the next Fukushima!!!!!!

- There is NO workable evacuation plan!!
- There are 20 million Americans in immediate danger, plus the rest of country, and the world too!!
- There is NO safe storage for radioactive waste and current repositories are overloaded!!

We don't need it. We don't want it. Would some NRC decision-makers please get a backbone and use common sense to SHUT IT DOWN!!!!

Respectfully submitted by the above named individuals
