Jason:

As result of a recent review we are proposing a few minor edits to wording of the Administrative section of the Tech Specs undergoing final approvals. i hope these may be able to be incorporated.
The proposal is attached. Please let me know if you need anything further.
Thanks.

UC Irvine Nuclear Reactor Facility
September 11th 2012

Proposed minor adjustments to Technical Specifications for license renewal, original dated March 2012.

Three sections are identified for proposed new wording as follows:
[6.4.h; 6.6.1.b.; and 6.7.2.b. 1)]

6.4 Operating Procedures

h. Use, receipt and transport of by-product materials..

6.6.1. Actions To Be Taken In Case of a Safety Limit Violation.

b. the event shall be reported immediately to NRC Headquarters Operations Center, the Reactor Director, the ROC chairperson, and the RSO;

6.7.2 Special Reports.

b.

1) permanent changes in facility organization involving Level 1 or 2 personnel.
