Subject: RE: Petition Review Board initial Recommendation regarding your 2.206 petition request
Importance: High

Dear Mr. Lochbaum,

You recall MD 8.11 correctly. Consistent with the guidance in the current revision (dated October 25, 2000) of MD 8.11, Part III, "Sending Documents to the Petitioner (H)", the petition manager will add the petitioners to service list(s) for the topic (if one exists). However, the Office of Nuclear Reactor Regulation, Division of Operating Reactor Licensing service list has been replaced by the ListServ distribution for all the operating reactors. The Operating Reactor ListServ can be accessed on the NRC's public website available at <http://www.nrc.gov/public-involve/listserver/plants-by-region.html>. Please let me know if you need any assistance for adding your names for Brunswick Units 1 and 2. In addition, I will ask the NRC Region II (RII) to add you to its service list for related topic, until the time RII use ListServ for Brunswick. Further, I will request the licensee to send you copies (electronically, if possible) of its future correspondence related to your petition, consistent with the guidance in MD 8.11. To the extent that I become aware of other future NRC correspondence related to the issues raised in your petition, I will ensure that you are placed on distribution for that correspondence.

Regards,

Farideh E. Saba, P.E.

Subject: RE: Petition Review Board initial Recommendation regarding your 2.206 petition request

Dear Ms. Saba:

Thank you for the status of our petition. I look forward to the NRC's work on it.

I appreciate the opportunity to provide the PRB with additional information, but respectfully decline. I do not have additional information to convey and hopefully addressed all questions by PRB members during the pre-PRB meeting.

If I recall Management Directive 8.11 correctly, the decision to accept our petition results in the petitioners (Ms. Olson, Mr. Warren, and me) being added to the NRC's service list on correspondence with the Brunswick licensee. If that's incorrect, please let me know.

Thanks again,
Dave Lochbaum
UCS

Subject: Petition Review Board initial Recommendation regarding your 2.206 petition request

Dear Mr. Lochbaum:

In your letter dated July 10, 2012, you (Ms. Mary Olson, Mr. Jim Warren, and you) requested that the NRC take enforcement action in the form of an order either modifying the Brunswick Units 1 and 2 operating licenses technical specifications (as detailed in the petition) or requiring the licensee to submit amendment requests for these licenses. The Nuclear Regulatory Commission (NRC) Petition Review Board (PRB) had a recorded conference call with you and Ms. Olson on August 15, 2012. During this conference call with the PRB, you and Ms. Olson provided additional information to supplement the original petition request dated July 10, 2012 . The official transcript of the August 15, 2012 meeting is accessible via the public web site Electronic Reading Room in the Agency Document Access and Management System (ADAMS), <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Number ML12234A730)

The PRB discussed your petition, as supplemented on August 15th, and determined that your petition met the criteria for review. Therefore, the PRB's initial recommendation is to accept your petition for review under the 10 CFR 2.206 process. Per MD 8.11, if you have additional information in support of your petition for the PRB to consider, we are offering you another opportunity to address the PRB. Please notify me by September 14, 2012, with your availability, if you wish to address the PRB in a public meeting or via a recorded conference call. If I have not heard from you by September 14th, the PRB's initial recommendation will become the final recommendation and we will proceed with processing your request as recommended by the PRB. Further details regarding the PRB's final recommendation and the NRC's future actions will be provided to you in an acknowledgement letter.

Please do not hesitate to contact me, if you have any questions or comments.
