Subject: Indian Point

Hello,
I strenuously object to the relicensing of the Indian Point Reactors.
I live in zip code 12533.
In the event of an accident at Indian Point, there can be no effective evacuation plan for the 20 million people in harm's way.
And then there is the risk from 40 years of spent fuel stored on site, which we have no means to deal with.

This is an insane risk.
Do not relicense,
shut down Indian Point's reactors.
