**Subject:** Indian Point Relicensing

Dear Sirs;

I strenuously object to the relicensing of the Indian Point Reactors.  
I live in southern Hopewell Junction, Ny 12533.  
In the event of an accident at Indian Point, there can be no effective evacuation plan for the 20 million people in harms way. And then there is the risk from 40 years of spent fuel stored on site.  
This is an insane risk.  
Do not relicense,  
shut down Indian Point's reactors.
