Subject: RAI Renewal Application dated 8/16/2012

(NOTE: This will be used as the Documents Title in ADAMS)

The RSO was contacted to request additional information regarding the renewal application. The RSO was informed that in order to complete the review of the application, additional information was needed regarding the applicants request for authorization to perform non-routine maintenance on portable nuclear gauges (removal of source rod). I reviewed Appendix G of NUREG-1556, Volume I, Rev. I with the RSO and requested that he provide an amended copy of the specific page requesting authorization. I requested he revise his application to address all of the bulleted items in Appendix G, and fax the revised document to RI referencing the mail control number above. The RSO said he would provide the amended request within 30 days. I informed the RSO to contact me if he had any questions or needed assistance.

Action Required: Licensee to provide additional information via fax. Save this telephone record in ADAMS under the mail control number, docket number and license number above.
