**Subject:** Top 5 Reasons To Close Indian Point

5. More than 1,500 tons of radioactive waste are stored in unfortified containers on the banks of the Hudson River, where we live and where our church is located.
4. More than 1 billion dead fish and other creatures of God are killed by Indian Point cooling water intakes every year.
3. There is an "unfavorable" evacuation plan.
2. More than 20 million Americans are at risk.
1. We don't need Indian Point power, as there is a surplus in our region until 2020.
