Subject: Close Indian Point

Dear NRC,

My husband and I live close to Indian Point. We are avid sailors and spend a lot of time on the Hudson River. The Hudson is a majestic river and was hugely important in United States history. To have a blight such as Indian Point polluting it is a travesty.

There are no safe evacuation routes and realizing that Indian Point sits atop a fault line is highly disturbing.

I urge you to shut down the facility. Stop destroying the fish and the environment. There are better alternatives to clean energy.

Regards,

Leslie Luciano
