**To:** Siarnacki, Anne; Docket, Hearing  
**Subject:** Close Indian Point

After seeing what happened at the Japanese nuclear power plant and the continued impact to the communities and environment, I think the risk is too great for Indian Point to continue to operate. I live in Poughkeepsie, upriver from the plant. The winds often blow up from the south and if there was a severe accident, it is not improbable that they would carry the radioactive fallout to my home. Let the lower risk energy alternatives be used in it's place.

Regards,  
Margaret LaBelle
