Subject: close indian point

Dear Sir/Madam,

It is time to close the Indian Point Power Plant. It stands in the middle of a super-populated area....one of the most populated in the world. Yes, it serves the energy needs of all of us in the area.....but it is time to find other ways and means to generate this energy. Folks in this area feel that it is just a matter of time before an accident or a criminal act creates a devastation for which we will not be able to recover.

Close Indian Point!!!!
