**Subject:** Greetings from Verplanck

I moved here from Great Neck, Long Island in 2002. I couldn't believe how close the plant is to the main road. And the main road is one lane!!! It stands out like a beacon along the river. You can see it for miles, up and down the river. You can find it very easily by just following the river. And it so close to NYC and millions of people. Think of the misery that could be possible. Please, close the plant.
