**Subject:** Indian Point

Sirs,  
I am writing to urge the Nuclear Regulatory Commission to deny Entergy's application for a 20-year license extension for the two operating nuclear reactors, IP-2 and IP-3, at Indian Point Energy Facility in Buchanan, NY.

I protested the building of the Plant, because as a Geology student I knew that building on a block fault system was a bad idea.

My understanding is that there are leaks currently moving toward the Hudson. Perhaps it is time to phase this reactor out.

Thank you.
