

Docket, Hearing

From: John Sperr [jsperr@hriyc.org]
Sent: Thursday, September 13, 2012 9:00 AM
To: Docket, Hearing
Subject: Indian Point Nuclear Plant

There is no justification for renewing the license for this aging nuclear plant.

Accidents do happen as we have seen at Three Mile Island and Fukushima.

The consequences of an accident at Indian Point would be a disaster of epic proportion -- let's put this dinosaur to rest right now while we can still safely do so.

Thank you.
