It is the policy of the Nuclear Regulatory Commission to pay government vendors by the Automated Clearing House (ACH) electronic funds transfer payment system. Item 15C of the Standard Form 33 may be disregarded.

1. BACKGROUND AND SCOPE

The U.S. Nuclear Regulatory Commission (NRC) is an independent Federal agency whose mission is to license and regulate the Nation's civilian use of byproduct, source, and special nuclear materials in order to protect public health and safety, promote the common defense and security, and protect the public and the environment from the effects of radiation. NRC staff license and inspect nuclear reactors, materials, and waste facilities to ensure compliance with applicable codes and standards during all phases of construction, testing, and decommission operation.

NRC's Human Resources Training & Development (HRTD) is responsible for efficiently and effectively training NRC employees. HRTD interacts with all NRC offices and regions. HRTD is frequently requested to provide training support services including instructional design and courseware development services for NRC offices and regions.

In the fall of calendar year (CY) 2012, the NRC will begin implementing Windows 7 and Microsoft Office (MO) 2010. The software is projected to be rolled out office by office until the entire agency has been updated. This task order requires the contractor to update the NRC's two existing SharePoint 2007 classroom courses as a result of the new software rollout.

2. SCOPE OF WORK (TRAINING NEED)

NRC seeks to update all the course content for the 2-day Introduction to SharePoint 2007 and the 2-day SharePoint Skills for Site Owners to reflect Windows 7 and MO SharePoint 2010 as implemented at the NRC. This effort involves updating all exercises, screen prints, operational steps, and relevant content in all the existing course materials. NRC will provide an OIS subject matter expert to provide the NRC specific content.

This task order does not include redesigning either course; simply replacing existing 2007 content with 2010 content.

3. DELIVERABLES

The contractor must deliver the following.

1. Meeting(s) to identify the changes needed to each course, tentative project timelines and other applicable discussion points as needed.
2. One or more onsite visits to capture screen prints, work with the software onsite on a NRC computer, "test" out revised course exercises to sure they work as designed, and to accurately update the course content and materials.
3. A draft set of course materials for each course for NRCs review prior to publication or course delivery. (Note: The COR must approve all draft materials before delivery.)
4. One round of revisions must be conducted before materials are prepared for production and delivery. The COR must approve all draft materials before delivery and a 2nd set of revisions/drafts must be supplied is requested the by NRC COR.
5. Delivery of each of the revised courses.

4. REQUIREMENTS

- Contractor must use the principles of instructional systems design (ISD) as the standard for the revision of each course.
- Contractor must work efficiently, effectively, and cooperatively with the NRC COR, his or her designee, or an OIS Subject Matter Experts (SME) within the allotted timeframe of the project, and as directed by the NRC COR.
- The contractor shall have the use of the Government Furnished Material (GFM) that will be used to revise the two courses. The contractor will have use of the GFM for the project duration. All GFM shall be returned upon completion of the project.
- Contractor shall deliver session(s) of each of the revised courses.
- Contractor must provide one qualified instructor per course delivery. The COR must approve all course delivery instructors associated with this project. If a scheduled course must be cancelled because the contractor fails to provide a qualified instructor, the contractor must reschedule the course at a mutually agreeable date without additional cost to the NRC.
- All cancellations or rescheduling of sessions will follow the Cancellation and Rescheduling Policies of the master HRTD course delivery contract between NRC and Management Concepts.
- The maximum number of students shall not exceed 18 per class.

7. GOVERNMENT FURNISHED MATERIALS (GFM)

The NRC will provide the classrooms and basic class supplies for each training session, rosters, and course evaluations. As needed, NRC will provide access to NRC subject matter experts and NRC specific content to be used in the course materials or to customize the course materials.

8. PERIOD OF PERFORMANCE

The period of performance shall be from date of award until September 14, 2013.

9. TRAVEL

NRC expects the contractor to use local designers and instructors for this project. Reimbursement for local travel is not provided. If long distance travel is unavoidable because a suitable local instructor cannot be found, all travel costs shall be reimbursed as per government regulations and the specifications in the course delivery between the NRC and Management Concepts.
