RE: Addition of location to license #21-32618-01

We have already previously (August 2012) put in a request for this approval, but we were notified we must first and separately add approval as a second location, then terminate the location, and this task cannot be done simultaneously. So therefore we are requesting to add information to our currently in application process to add to our Advanced Virtual Radiology, 441 Franklin Wright Blvd, Lake Orion, MI #21-32618-01 NRC license the location of 5485 Schaefer Road, Dearborn, MI 48126. The second and attached paperwork requests to terminate the current license for this address which is currently under a separate license under the name of Heart and Lung, 5486 Schaefer Rd, Dearborn, MI 48126 #21-32612-01.

To make sure we are clear both of locations both currently have Dr. Anthony Bennett, MD as the Authorized Users and Radiation Safety Officer - so both locations have the same management.

You should be able to easily transfer the information, maps, equipment from the heart and lung #21-32612-01 location to the #21-32618-01 location - If you need copies of site maps or equipment information, or if you have any questions I can easily provide this to you by contact me as the site physicist and Laura T. Smith, MS, DABR at lsphysics@att.net.

Laura T. Smith, MS, DABR

RE: Termination of location to license #21-32612-01

This is supplement information to a request already submitted previously -- we were told we could not perform tasks simultaneously so therefore we are now submitting these as separate actions. Therefore, we are requesting to terminate the current license for this address Heart and Lung, 5486 Schaefer Rd, Dearborn, MI 48126 #21-32612-01, it should be noted we are adding this site to another license (in attached paperwork #21-32618-01 - Advanced Virtual)

To make sure we are clear both of locations both currently have Dr. Anthony Bennett, MD as the Authorized Users and Radiation Safety Officer -- so both locations have the same management.

If you have any questions I can easily provide this to you by contact me as the site physicist and Laura T. Smith, MS, DABR at lphysics@att.net.
