To: Docket, Hearing; Siarnacki, Anne
Subject: Please do NOT extend life of Indian Point

Dear NRC and Ms. Siarnacki,

I'll keep it short. **PLEASE SHUT DOWN THE INDIAN POINT REACTORS.** THEY WERE NOT DESIGNED TO CONTINUE WORKING THIS LONG. We don't want another Fukushima! We don't need the energy they provide; we can get it elsewhere. The environmental degradation should be stopped, and for gosh sakes, it's just common sense. They never should have built a nuclear reactor on an earthquake fault line in a major metropolitan area like ours. Now that they know the risk to the millions of nearby residents, they must shut it down. It's really scary to have it nearby. There's always the possibility of a "black swan" event. Please do the right thing and say NO.

Thank you,

Laurie
