To: Docket, Hearing
Subject: Indian Point

To whom it might concern,
Despite just being a senior in high school I believe that everyone big or small has a say in going ons in their community. I have walked on numerous protests against Indian Point to try to shut down the plant in Westchester. I know it is a very difficult decision to shut down a plant that has been running for decades and has generated power for many members of our state's population. Doesn't it make sense, however to develop a source of clean energy that doesn't include a risk no matter how slight for a enormous danger to the men, women, and children of New York State Thank you very much for your time Alex Grabstein Ossining NY

DOCKETED
USNRC
